ROMA COLLECTION

An Eco-Friendly Solution

70% Zero Twist Cotton / 30% Lyocell

Roma Towels combine the natural comfort of Lyocell with the next-generation softness of Solucell zero-twist cotton, delivering a towel that feels premium, lasts longer, and supports a cleaner manufacturing process.

Style	Description	Size	Weight
ORM1313	Wash Cloth	13 x 13	1.75 lb
ORM1630	Hand Towel	16 x 30	5.00 lb
OM2234	Bathmat (double framed)	22 x 34	10.50 lb
ORM3060	Bath Sheet	30 x 60	20.00 lb

LYOCELL – Softness With Sustainability

Lyocell is a high-quality fiber made from sustainably sourced wood pulp, known for its naturally smooth and silky texture. It brings exceptional breathability, softness, and durability to Roma Towels, helping them stay fresh and comfortable even with repeated use. Because Lyocell is produced through a closed-loop process where almost all solvents are recycled, it offers a cleaner, more eco-friendly alternative to conventional fibers while still delivering a premium feel on the skin.

SOLUCELL – Plush, Zero-Twist Comfort

Solucell is an advanced material used to create zero-twist yarn, giving Roma Towels their plush, cloud-soft texture without using any plastic-based ingredients like PVA. It dissolves cleanly during production and breaks down easily in water treatment, making it far safer for the environment. Solucell helps the yarn stay open and airy, increasing absorbency and comfort, and giving the towels a fuller, more luxurious finish that lasts wash after wash.
